Through this partnership, gold, silver and bronze medalists in certain events have the opportunity to compete further, among America’s elite senior athletes. Veterans may participate in the NSG by qualifying in the core competitions in the year preceding the Games. Veterans that meet the specific criteria while participating in the NVGAG qualify to participate.

Select events offered at the NVGAG serve as pre-qualifying events to compete at the National Senior Games. The Office of National Veterans Sports Programs & Special Events supports all NVGAG elite athletes to take their competitive drive to the next level. After the qualifying year (every even year, i.e. 2018, 2020, 2022…etc.), the NVGAG National Office will transmit all qualifiers to the National Senior Games office through the online registration. Qualifiers include:
all first, second and third place finishers for: badminton, horseshoes, non-ambulatory horseshoes, pickleball, shuffleboard, non- ambulatory shuffleboard and table tennis; and all first, second, third, and fourth place finishers for: bowling, non-ambulatory bowling, cycling, field, golf, swimming and track. The NSGA will then contact qualifying Veterans with their registration materials for the National Senior Games competition. All costs associated with their participation at the National Senior Games will be the attending Veteran’s responsibility. For more information, please visit www.nsga.com.

EQUIPMENT

Athletes are responsible for bringing their own two-wheel or three wheeled bicycle and helmet for competition that is custom-fit for them. Multi-gear (free-wheel) bikes with front and rear brakes are required. NVGAG will not provide equipment for this event. There may be no protective shield, fairing or other device on any part of the bicycle (including, but not limited to, the frame, wheels, handlebars, chain wheel or accessories) that has the effect of reducing air resistance. Handlebars used for steering with ends, features, or attachments that extend forward or upward or that provide support for other than the rider’s hands (including aero bars) are permitted only in the time trial events and not in the road race events.

All bicycles must be certified by the Lead official prior to the competition. Helmets are mandatory and must conform to USA Cycling regulations. Athletes will be required to furnish and wear their own athletic shoes for this competition. Recumbent bikes are welcomed.

Bike Suggestions and examples:
- Personal bikes are required and the preference of bike depends on the person’s interest.
- If the athlete is going to be road racing and riding at home, while balance and stability aren't issues, a road bike is what should be acquired.
- If they are going to use the bike more recreationally and exercise, more for riding bike trails with family, etc. then the hybrid cross trainer is a good option. It is more like a mountain bike but lighter and cheaper.
- Recumbent bikes or trikes (three-wheel bikes), performance wise they are the same and reduce risk of crashes and hip fractures. The catrike and sun products are popular brands.
COMPETITION

The cycling competition is a 5k time trial and 20k road race and is limited to ambulatory athletes only based on the best time. Recumbent cycles will compete in a separate open category in the 5k time trial event only. Each athlete will be given the opportunity to become familiar with the course. Warm-up prior to the cycling competition will be used to determine the riding ability and safety of the athlete. If the athlete is deemed unsafe and/or dressed inappropriately he/she will not be allowed to compete.

Riders must stay to the right except when overtaking another rider. Failure to do so will result in disqualification. In time trial events, no rider shall pace behind another rider closer than 25 meters (80 feet) ahead, or 2 meters (7 feet) to the side. A rider who is observed taking pace shall receive a time penalty. No restarts are permitted.

COMPETITION

The competition will be set up in a single elimination tournament format. All matches will be best two out of three games. Third Place game will match the two losers of the two semi-final games against each other. All games will be subject to a 10-min time limit.

Nine Ball is a rotation game, meaning the balls are shot in numerical order. The shooter must strike the lowest numbered ball on the table first. The game is over when the 9-ball is legally pocketed. A player retains his/her turn at the table as long as he/she strikes the lowest numbered ball first and legally pockets a ball. He/she need not pocket the lowest numbered ball to continue shooting. For example, he/she may shoot the 1-ball into the 4-ball, thus pocketing the 4-ball. He/she will then continue shooting but must, once again, strike the 1-ball first. If the shooter hits the 1-ball into the 9-ball and the 9-ball is pocketed, the game is over and that shooter wins. Neither shots nor pockets need to be called.

Nine balls are used and are racked in a diamond shape. All fouls carry the ball in hand penalty anywhere on the table. Fouls may be determined before each bracket of play; final decision will be made by National Official.

After the 10-minute time limit and a winner has not been determined, a "shoot-out" will determine the winner. The "shoot-out" rules are listed in the event rule sheet.

EXHIBITION SPORTS

The exhibition sports will be introductory clinics that will include instruction, as well as opportunities to participate. Individual personal equipment is NOT allowed for the exhibition sports.

CHESS

The game of chess is a popular strategy board game played by millions each year. The game is played on a checkered 8x8 grid, arranged with 64 squares. The game is played with 32 pieces with each player acquiring 16 pieces. The pieces consist of one king, one queen, two rooks, two knights, two bishops, and eight pawns. The game is said to have originated from India.

The NVGAG will provide the chess board and pieces.

LEARNING THE SPORT

Chess is a game for two players, one with the “White” pieces and one with the “Black pieces. The game is setup as followed: 1) Opposing Kings and Queens go directly opposite of each other. 2) The square in the lower right-hand corner is a light one (“light on right”). 3) The White Queen goes on a light square, the Black Queen on a dark square (“Queen on her own color”).

Piece movements:

Rock: The rook can move horizontally and vertically as many squares as it wants. The rook can move to any of the starred squares. The rook captures in the same way that it moves.

King: The king has little mobility. But the king's value is unquantifiable, because it entrapment ends the game. It moves one square in every direction. The king captures in the same way it moves, but unlike any other piece, the king cannot be captured.

Bishop: The bishop moves diagonally as many squares as it wants. Bishops remain on the same color all game. Explaining his divorce, World Champion Boris Spassky said, "We were like bishops of opposite colors." An apt analogy: Bishops of the opposite color live on the same board but never, ever have contact.

Queen: The queen is the most powerful piece on the board. She moves like the rook and bishop combined: diagonally, horizontally and laterally as many squares as she wants. Like
the rook and bishop, she captures in the same way that she moves. The queen can move to any of the starred squares. The queen can capture any of the Black pieces with her next move.

Pawn: The pawn is the weakest piece on the board, but don't underestimate their importance Learning the pawn's move is tricky. The pawn is the only piece on the board that does not move backward. A decision to barge ahead with a pawn is final, which is why such precision is required with pawns. On their first move, the pawns can move forward one or two squares. Think of the two-square push as the pawn's morning cup! After each pawn has moved, it can only move one square forward at a time. The pawn captures diagonally only. The pawn is the only piece that does not capture in the same way that it moves.

Knight: The knight is the trickiest piece to learn. Newcomers to chess often find the knight so hard to remember that they keep the knights in the back row. Such a scorned knight feels sad and depressed. Knights are the only piece that can jump over other pieces. However, they do not capture any pieces that they jump over. At the start of a chess game, the knights can jump out immediately over his own pawns, like in the diagram above. All the other pieces must wait for the pawns to free up space for them to move along diagonals, files and ranks. The knight moves two squares one way, and then one square the other, in the shape of an L. The knight captures in the same way as it moves.

CORNHOLE

Cornhole is a game that you use wooden boxes called cornhole platforms and corn bags or bean bags. Each participant takes a turn to pitch their bags at the cornhole platform until the participant reaches the score of 21. A bag on in the hole scores 3 points while one on the platform scores 1 point. Scoring can be swift and the lead may change hands several times in a match before the winner is decided.

The NVGAG will provide the cornhole platforms and corn/bean bags for needed for this exhibition event.

LEARNING THE SPORT

Players alternate pitching bags (one player at a time) until each player has pitched all (4) of his/her bags. A player must pitch all (4) cornhole bags from their designated cornhole pitchers box. Players must deliver the bag with an under-hand release. One foot or appendage must be completely within the pitcher’s box at the time of releasing the bag.

When pitching a bag, players must release the bag before any part of the player’s body touches the ground on or beyond the foul line.

Scoring:
Cancellation Scoring: The approved method of scoring for the sport of cornhole is “cancellation” scoring. In cancellation scoring, the points of one player cancel out the points of their opponent. Using this method, only one player/team can score in each frame.

Woody (1 point) – Refers to any cornhole bag that has been pitched and remains on the cornhole board playing surface at the conclusion of the frame.

Cornhole (3 points) – Refers to any cornhole bag that has been pitched and passes through the cornhole board hole at any time within the frame.

Foul Bags – Refers to any cornhole bag that has not been determined as a “woody” or “cornhole”, or was designated a foul bag as the result of rules violation.

For example: Example: Red achieves one (1) woody and two (2) cornholes during the frame (7 total pts) Blue achieves two (2) woodies and zero (0) cornholes during the frame (2 total pts) 7 points – 2 points = Red scores 5 points for that frame
