I. Program Description

A. Purpose:

The Adaptive Sports Grant Program, as identified under assistance listing 64.034 provides grants to eligible entities to plan, develop, manage, and implement programs to provide adaptive sports activities for Veterans and members of the Armed Forces with disabilities. For the purpose of this program, adaptive sports activities are defined in accordance with 38 CFR 77.2 as:

(1) instruction, participation, and competition in adaptive sports

For example: introductory sport clinics, adaptive sport camps, regularly scheduled practices, lessons, and tournaments for Veterans with disabilities and members of the Armed Forces with disabilities.

(2) training and technical assistance to program administrators, coaches, recreation therapists, instructors, VA employees, and other appropriate individuals

For example: sport-specific certification courses, instructor trainings, referee training clinics, functional classifier certification classes, continuing education courses geared towards adaptive sports.

(3) coordination, Paralympic classification of athletes, athlete assessment, sport-specific training techniques, program development (including programs at the local level), sports equipment, supplies, program evaluation, and other activities related to the implementation and operation of the program

For example: athlete classification sessions, equipment distribution programs, instructional media.

B. Priorities and Goals

The primary goal for this NOFA is to ensure that appropriate levels of resources are provided to eligible adaptive sports entities with capabilities that are well-suited to meet the needs and priorities for Veterans with disabilities and members of the Armed Forces with disabilities. Priorities to be supported by this NOFA are:

- providing adaptive sports for Veterans, and members of the Armed Forces, with disabilities in underserved activities that are of increased interest.
- providing adaptive sports for Veterans, and members of the Armed Forces, with disabilities in geographic regions where limited adaptive sports opportunities are available for this population.
- in-person or web-based training for adaptive sports providers that minimizes required travel and maximizes effectiveness.

- including VA subject matter experts in the development of the curriculum for in-person or web-based training for adaptive sports providers.
- provide classifier certification opportunities to increase qualified personnel across the country.
- provide athlete classification opportunities for Veterans, and members of the Armed Forces, with disabilities.

C. Definitions:

38 CFR 77.2 and VIII. Appendix of this NOFA contain definitions of terms used in the Adaptive Sports Grant Program and this NOFA.

D. Authority:

This grant program is authorized by 38 U.S.C. 521A. VA implements the Adaptive Sports Grant Program by regulation in 38 CFR Part 77. Funds made available under this NOFA are subject to the requirements of the aforementioned regulation and other applicable laws and regulations.

E. Requirements for the Use of Grant Funds:

The grantee's request for funding must be consistent with the limitations on and uses of grant funds set forth in 38 CFR Part 77 and this NOFA. In accordance with the regulations and this NOFA, the following requirements apply to grants awarded under this NOFA:

- (1) Grantees may use up to a **maximum of five percent of grant funds for all administrative expenses**, which includes administrative expenses and any costs associated with an employee of the eligible entity other than reimbursement for time spent by such an employee directly providing coaching or training for participants, as identified in 38 CFR 77.14(c). Funding associated with proposed activities that are administrative in nature (e.g., recruitment activities, planning and grant management) will be considered as administrative costs, even if listed as otherwise in the proposal. The five percent rate is mandated by 38 USC 521A and applies unique definitions of administrative costs that supersede other federal non-legislative guidance.
- (2) Grant funds are solely to be used to support or provide services to Veterans or members of the Armed Forces with disabilities, as required in 38 CFR 77.14(d).
- (3) Grantees may not use grant funds to support or provide services to individuals barred from receiving VA benefits, as identified in 38 CFR 77.14(e).

F. Evaluation and Performance:

Grantees will be evaluated on the quality and timeliness of programmatic and financial reporting. NVSPSE will evaluate performance according to the grantee's

originally approved proposal; including the percentage of participant numbers served, percentage of executed deliverables, adherence to the approved budget and estimated cost per veteran, and proper submission of modification requests as needed.

Evaluation and Performance metrics may be used by NVSPSE as Prior Performance information for review of future applications.

II. Federal Award Information

A. Funding:

This NOFA announces the availability of up to \$14,500,000 to be awarded by VA for proposals to plan, develop, manage, and implement programs that provide adaptive sports activities for Veterans and members of the Armed Forces with disabilities.

VA will not consider a renewal grant application under this NOFA. Current grantees must submit an initial application if seeking grant funding.

All awards funded under this announcement will be grants.

B. Allocation of Funds:

Funding will be awarded under this NOFA to grantees for a 12-month period. The following requirements apply to adaptive sports grants awarded under this NOFA:

The maximum award amount for an application under this NOFA is \$750,000.00.

Applicants should submit applications for programming related to provision of adaptive sports or related services to Veterans and members of the Armed Forces with disabilities; and training for adaptive sports providers to provide these services to Veterans or members of the Armed Forces with disabilities. All activities that fall under an individual category (Programming for Veterans, Training of Providers, or Other) can be included in a single application award up to a maximum of \$750,000. Multiple applications from the same applicant which duplicate programming/deliverables will not be considered for funding.

The application title, as displayed on VA Form 10096 Section A. 2. and the Narrative, must include in parenthesis the primary program category being addressed in the proposal. The primary program category can be judged by the preponderance of funds spent on a particular category.

C. Adaptive Sports Grant Award Period:

All Adaptive Sports Grant Program awards will be for a 12-month period, September 30, 2022 – September 30, 2023.

III. Eligibility Information:

To be eligible, an applicant must qualify as a Non-Federal Government entity with significant experience in managing a large-scale adaptive sports program, as defined in 38 CFR 77.2, for persons with disabilities if those disabilities are the same as those of Veterans with disabilities, and members of the Armed Forces with disabilities. “Significant experience” and “large-scale” are addressed in 38 CFR 77.2 as:

A. To demonstrate Significant Experience:

All key personnel identified in the adaptive sports grant application must have qualifications that demonstrate experience implementing the adaptive sports activities to be provided, and demonstrate experience working with persons with the disabilities that Veterans and members of the Armed Forces may experience.

Demonstrate a minimum of two continuous years of implementing adaptive sports activities and working with individuals with disabilities (these years must occur immediately prior to the date of the Adaptive Sports Grant Program application submission to VA).

When more than one entity will be engaged in the provision of the adaptive sport activities, the entity applying for the adaptive sports grant must provide documentation that verifies that through the partnership, it has the experience necessary to implement all the adaptive sports activities proposed in the adaptive sports grant application.

B. To qualify as a Large-Scale adaptive sports program an organization must be one or more of the following:

(1) An adaptive sports program of a National Paralympic Committee (NPC) or of a National Governing Body (NGB) that is authorized to provide Paralympic sports programs in one or more States;

(2) An adaptive sports program of a NGB that has been recognized by an external validating authority if the programs validated by that authority would meet the requirements of paragraph (3) of this definition if considered one program; and

(3) An adaptive sports program in which at least 50 persons with disabilities participate or in which the persons with disabilities who participate in the program reside in at least five different congressional districts.

C. Entity Eligibility:

To be eligible, an entity must comply with 2 CFR Parts 25 and 200, criteria for a Non-Federal entity eligible for federal grant programs, including but not limited to: being registered in SAM.gov, having no delinquent federal debts, and not being debarred or suspended.

The Adaptive Sports Grant Program provides adaptive sports activities for Veterans and members of the Armed Forces with disabilities; therefore, applicants that do not provide adaptive sports activities for persons with disabilities that are the same as those that may be experienced by Veterans or members of the Armed Forces; or Veterans or members of the Armed Forces with disabilities will not be considered for funding.

D. Cost Sharing or Matching:

This program does not require cost sharing or matching funds. Including such funds will not receive additional consideration during the review process and is not a screening/scoring criteria.

E. Equine Therapy Grant Applications:

Applicants interested in submitting a proposal for equine therapy for Veterans for mental health must submit to Funding Opportunity Number VA-EQUINE-22, as these proposals will not be considered under this NOFA.
